

CHILD WELFARE INTERN

Supporting youth and families in the Illinois child welfare system.

INTERNSHIPS AT LCFS

Lutheran Child and Family Services of Illinois (LCFS) values the opportunity to provide hands-on experience, insight and guidance in the field. It is the goal for all LCFS interns to have an experience of exposure to skills consistent with the competencies we would develop in new professionals entering the field. LCFS has varied means for aspiring helping professionals to experience and engage a diverse set of children, individuals, adults, systems and multidisciplinary teams. LCFS interns have an opportunity to work in multiple programs to obtain a better understanding on how

we connect to meet the needs of clients. An internship with LCFS will also help students gain familiarity with the importance of partnership, collaboration and learn about external services that are available to the community and other stakeholders. Students will be empowered to explore, build and exercise their skill level in the area of engagement, assessment, evaluation, critical thinking and intervention through a varied lens and opportunities. All interns are engaged in an agency orientation to acclimate them to their internship role, critical policies, practices, shared expectations and accountabilities for their experience at LCFS.

HOW TO APPLY?

Submit your resume with a cover letter indicating your area of interest, availability to complete your internship hours, and other identifying factors related to your major so that we can determine if a match is possible. Resumes and cover letter should be sent to Deborah Oberle at Deborah_Oberle@lcfs.org.
